PROFILE

Passionate and dedicated information technology student seeking a challenging position in a reputed organization. Eager to apply theoretical knowledge to practical projects and contribute positively to team success. A strong communicator with a keen ability to adapt and learn quickly. Committed to continuous personal and professional development

PERSONAL PROJECTS

Cruise Management System

Cruise Management System is a React.js-based frontend framework for efficient cruise operation management with a user-friendly interface

Portfolio

I designed and developed a personal portfolio using HTML and CSS, showcasing my skills and projects in a visually appealing manner. The portfolio highlights my expertise in web development and design.

Traveling Website

I developed a travel website frontend using HTML and CSS, focusing on intuitive design and user-friendly navigation to enhance the user's travel planning experience.
